I am really interested in Software Engineering, especially Python and Android technologies. I want to become a Junior in the next 6 months and raise to Senior after 1.5 years.

## TECHNICAL SKILLS

<b>Web Development</b>	Django, Python, SQL, Linux, JavaScript
<b>Mobile Development</b>	Android, Java, Firebase
<b>AI &amp; Machine Learning</b>	Machine Learning, NLP, Deep Learning

## EDUCATION

<b>Bachelor of Information Technology</b>	<b>VNU - HCMUS</b>   2017 - 2022
GPA: 8.41	

## PERSONAL PROJECTS

<b>Shopee Fashion - Sentiment Analysis Model</b> <ul style="list-style-type: none"><li>This app uses Django, Tensorflow, and Sklearn to predict whether customers' comments are positive or negative.</li></ul>	3 months
<b>Android Java - Fashion Shopping Mobile App</b> <ul style="list-style-type: none"><li>Using Android Java and Firebase Firestore, Firebase Firestorage, Firebase Authentication to create a fashion shopping app.</li></ul>	2 months
<b>Study Buddy</b> <ul style="list-style-type: none"><li>This is a naive version of Google Classroom using Django. You can post your topics and other people can leave their comments to discuss those topics.</li></ul>	2 weeks
<b>Chat App</b> <ul style="list-style-type: none"><li>Using Java and Socket techniques to chat and share data between multiple clients.</li></ul>	2 weeks
<b>News website</b> <ul style="list-style-type: none"><li>Using NodeJS to create a news website with CRUD functions, user authentication, check user permissions.</li></ul>	3 months
<b>Shooting and automatically Pacman game</b> <ul style="list-style-type: none"><li>Using Python, PyGame, and graph algorithms to play games automatically.</li></ul>	1 months
<b>Fake Images</b> <ul style="list-style-type: none"><li>Python and TensorFlow with DC-GANs algorithms generate faked images of furniture, cars, and animals.</li></ul>	2 weeks
<b>Kleantrans</b> <ul style="list-style-type: none"><li>The desktop app helps people can read English books without copy-paste operation on Google Translate using Python and PySide2.</li></ul>	2 weeks
<b>Algorithms</b> <ul style="list-style-type: none"><li>Collection of my solutions for the problems on CodeForces, HackerRank, SPOJ,...</li></ul>
